

# Pre-Fab Strut Solutions

No Cutting. No Waste. No Downtime.

# Introducing T&B Pre-Cut Superstrut®

No Cutting. No Waste. No Downtime.

Thomas & Betts' Pre-Cut Superstrut® Solutions is an innovative program offered to contractors who are focused on "Total Project Cost Reduction." T&B introduces the Pre-Cut Superstrut® program as a new addition to our value added portfolio of product service solutions to help customers gain savings in areas such as: Labor & Materials, Safety, Storage and Logistics. Our goal is to provide end users with tailored strut solutions to fit their project needs!

## What is it?

The Pre-Cut Superstrut® program minimizes labor costs, delivery, materials handling, storage space, and safety concerns. T&B understands these are common but significant areas of concern at any scale project. We offer a variety of lengths as well as customization to fit your specific and unique project application. Please contact your local T&B Sales Representative or Product Distributor for quotation.

- Pre-galvanized (PG) finished in lengths ranging from 1' to 18'
  - Solid channel order option available at any length between 1' and 18'
  - Half slotted channel order option available in 2" increments
  - Full slotted channel order option available in 4" increments
- Available in A and B series
- Bundled and Kitted with accessories
- Direct shipments to location is available

## One Order. One Shipment. One Invoice.

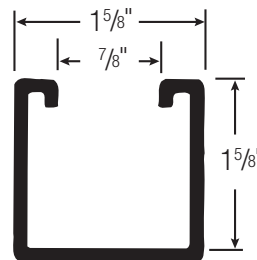

ABB and Thomas & Betts feature the industry's largest product selection from a single source. By doing business with ABB's Low-Voltage Products division, customers simply place "One Order" to fulfill both ABB and T&B product needs. Under one roof, our Byhalia Distribution Center houses more than 21,000 different high-quality ABB products, such as breakers, switches, control products, and DIN rail, plus T&B's market-leading brand names, such as Ty-Rap® cable ties, Elastimold®, Carlon® floor boxes, Ocal® conduit systems, and more.
